

# Why upgrade to Infor SunSystems Cloud

## The shift to the cloud is underway

**85%** of organisations are expected to adopt a cloud-first strategy by 2025, according to Gartner<sup>1</sup>

**46%** of leading CFOs have implemented cloud-based technology, says an IBM CFO study<sup>2</sup>

<sup>1</sup> Gartner, *Cloud will be the centrepiece of new digital experiences*, Press Release, November 2021.

<sup>2</sup> IBM, *6 power moves CFOs must make*, CFO Study, 2024.

## The benefits of moving to Infor SunSystems Cloud

- Keep your data secure 24/7
- Ensure compliance with global standards
- Scale easily as your business grows
- Reduce operational and IT costs
- Gain access to powerful financial tools
- Stay current with the latest technology

## Smarter tools at your fingertips

### Security

Powered by Amazon Web Services® (AWS®), the world’s leading cloud platform, with 24/7 monitoring by Infor™ Cloud security experts.

For more information, visit [www.trust.infor.com](http://www.trust.infor.com)

### Lower total cost of ownership (TCO)

Save on infrastructure, maintenance, licences and IT costs with one predictable subscription and no hidden expenses.

### Compliance

Meets global standards, including System and Organization Controls (SOC) 1 and 2, General Data Protection Regulation (GDPR) and Network and Information Systems 2 (NIS2).

### Rich in functionality

Access core Infor SunSystems™ capabilities, including Record to Report, Procure to Pay and Order to Cash.

### Scalability and performance

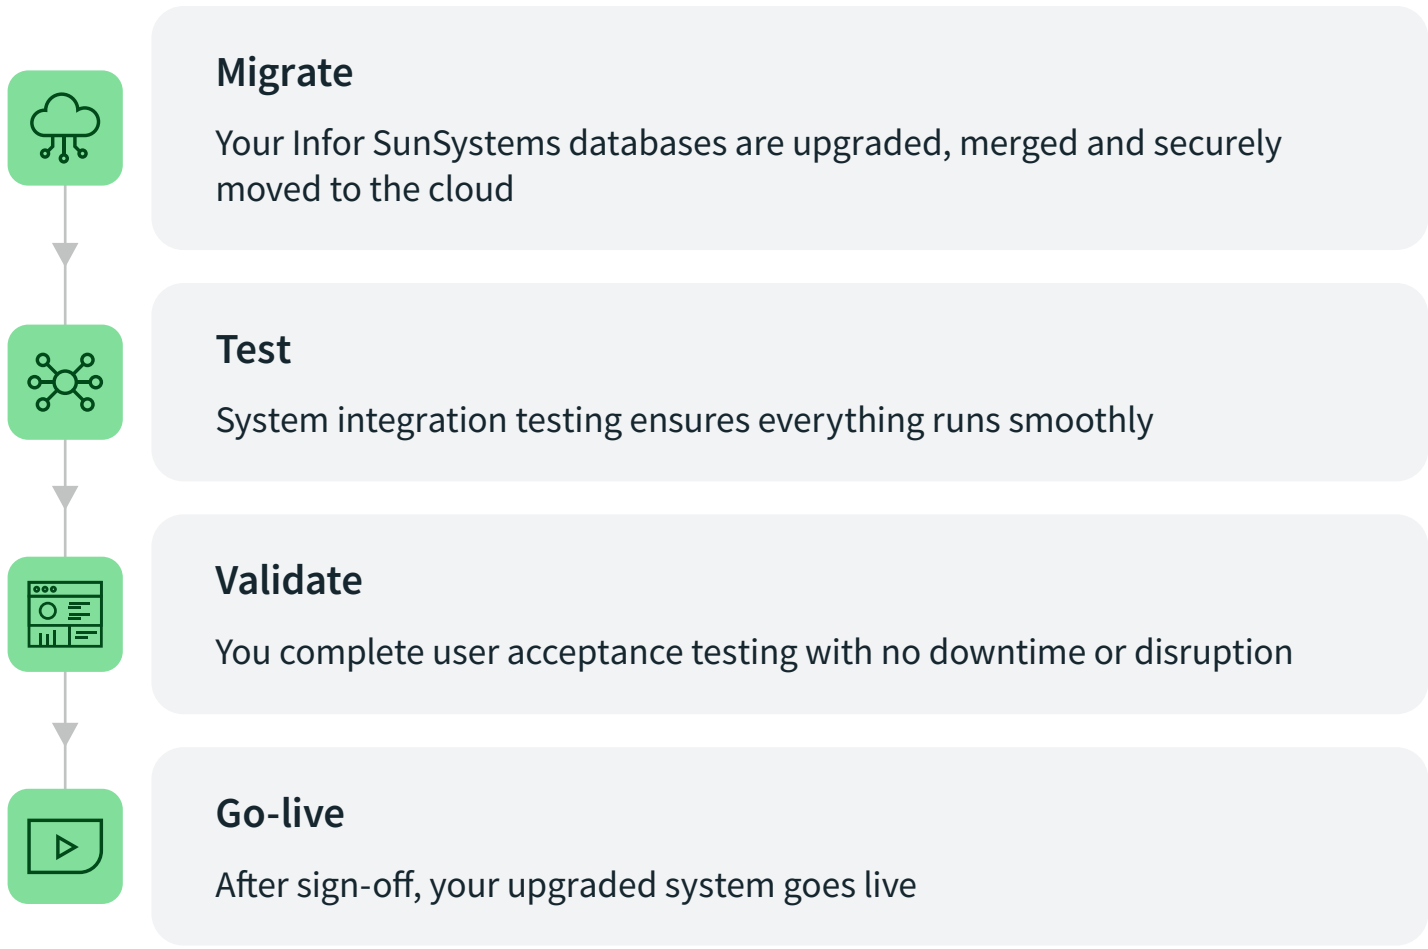

Auto-scaling technology adjusts to demand, ensuring fast and stable performance during busy periods.

### Future proof

Stay aligned with the latest technology standards. Infor SunSystems Cloud is automatically kept up to date and compatible with evolving technologies.

## How the upgrade works

## Infor SunSystems Product Lifecycle Policy

Infor recommends customers stay on the current release (Infor SunSystems Cloud) or current release -1 (Infor SunSystems v6.4 / Q&A v11.3).

Infor does not “End of Life” products under active maintenance—the Lifecycle Policy only reflects maintenance changes.

After 31 December 2026, Extended Maintenance ends for v6.1, 6.2 and 6.3, shifting to Sustaining Maintenance. All prior versions are already on Sustaining Maintenance.
