

Infor SunSystems Cloud for not-for-profit organisations

Empowering financial clarity, compliance and impact

Simplify global, complex operations

Adapting fast, delivering more

Pain point:

Many not-for-profit organisations operate across borders or in remote or disaster-affected areas, where manual processes and fragmented systems create delays and errors.

Positioning:

With built-in multi-currency, multi-language and multi-ledger capabilities, Infor SunSystems™ Cloud streamlines financial management across multiple geographies and challenging operating environments. This enables organisations to deliver aid faster, maintain accurate records for donors and ensure accountability even in crisis zones.

Build donor trust through transparency

Because every donation counts

Pain point:

Donors and regulators demand clear, auditable reporting to ensure funds are used appropriately.

Positioning:

Infor SunSystems Cloud provides a single source of truth with a strong audit trail, intuitive spreadsheet-based reporting and drill-down capabilities. Finance teams can produce donor- and board-ready reports in minutes, strengthening trust, improving compliance and freeing up staff to focus on mission impact.

Navigate volatile funding with confidence

Financial clarity that fuels mission impact

Pain point:

Not-for-profit organisations face unpredictable funding cycles, with donations and grants often fluctuating year to year.

Positioning:

The Infor™ solution equips not-for-profit organisations with real-time visibility into program budgets and the flexibility to model funding scenarios. By consolidating restricted and unrestricted funds in a single view, finance leaders can swiftly reallocate resources without compromising transparency or compliance.

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organisations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
